

OMEXCO

Fine Belgian Wallcoverings

Life is too short
for boring walls.

WALLS TO TALK ABOUT

Omexco is a Belgian brand of fine wallcoverings, founded in 1976. In our atelier close to Brussels, we design and manufacture exquisite wall decorations to dress your rooms in tactile beauty. Printed, woven or natural, each one of our creations is custom cut to bring poetry to your space. Reducing our environmental footprint is at the heart of every decision we make, since the seventies. We don't cover your walls, we make them stand out.

BELGIAN SAVOIR-FAIRE

ARCHIPELAGO, ARC42

OMEXCO Fine Belgian Wallcoverings

As an established designer and producer of luxury wallcoverings, we control the whole process from the original idea all the way to the production process and the shipping of the final wallcovering. This allows us to always offer a flawless high-end product.

We don't cover
your walls, we make
them stand out

A team of in-house designers is in continuous dialogue with a highly qualified production team to create new designs, with vibrant colours and unique textures.

A lot of research and development goes into the creation of those new designs in order to offer ever more high-quality wallcoverings.

DESIGN STUDIO

24 hour shipping

A full range stock-holding enables us to offer a swift and flexible cut length service. An efficient customer service and warehouse team do their utmost to ensure that every order is shipped world wide within 24 hours.

Sold by the metre, no minimum

Custom designs

Whether you require customised colours, special patterns or bespoke dimensions, our design studio acquired a broad expertise to offer a design service on request.

OUR CONTRIBUTION TO A MORE SUSTAINABLE FUTURE

Renewable energy

All products made in Belgium are manufactured with solar energy coming from the panels on the roof of the mill. With 3.500 m² of solar panels, we cover our entire electricity needs and are thereby saving 300 tons of CO₂ each year.

Reuse of water

Rainwater is recovered and used in our production process. 50% of waste water is treated and reused for production.

No PVC or harmful chemicals

We work exclusively with water based printing pastes, without PVC, solvents, formaldehyde or heavy metals.

FSC certified partners

All non-woven products respect the principles of responsible forestry.

CAPIZ SHELLS

Eco-friendly fibres

All our non-wovens contain 50% or more recycled fibers, but also our natural materials are crafted with responsibly harvested materials. This way we ensure that beauty and integrity go hand in hand.

Reduced wastage

To decrease waste, every order is custom cut. No minimum or fixed increments.

ALEGRE, OAS211

Naturals

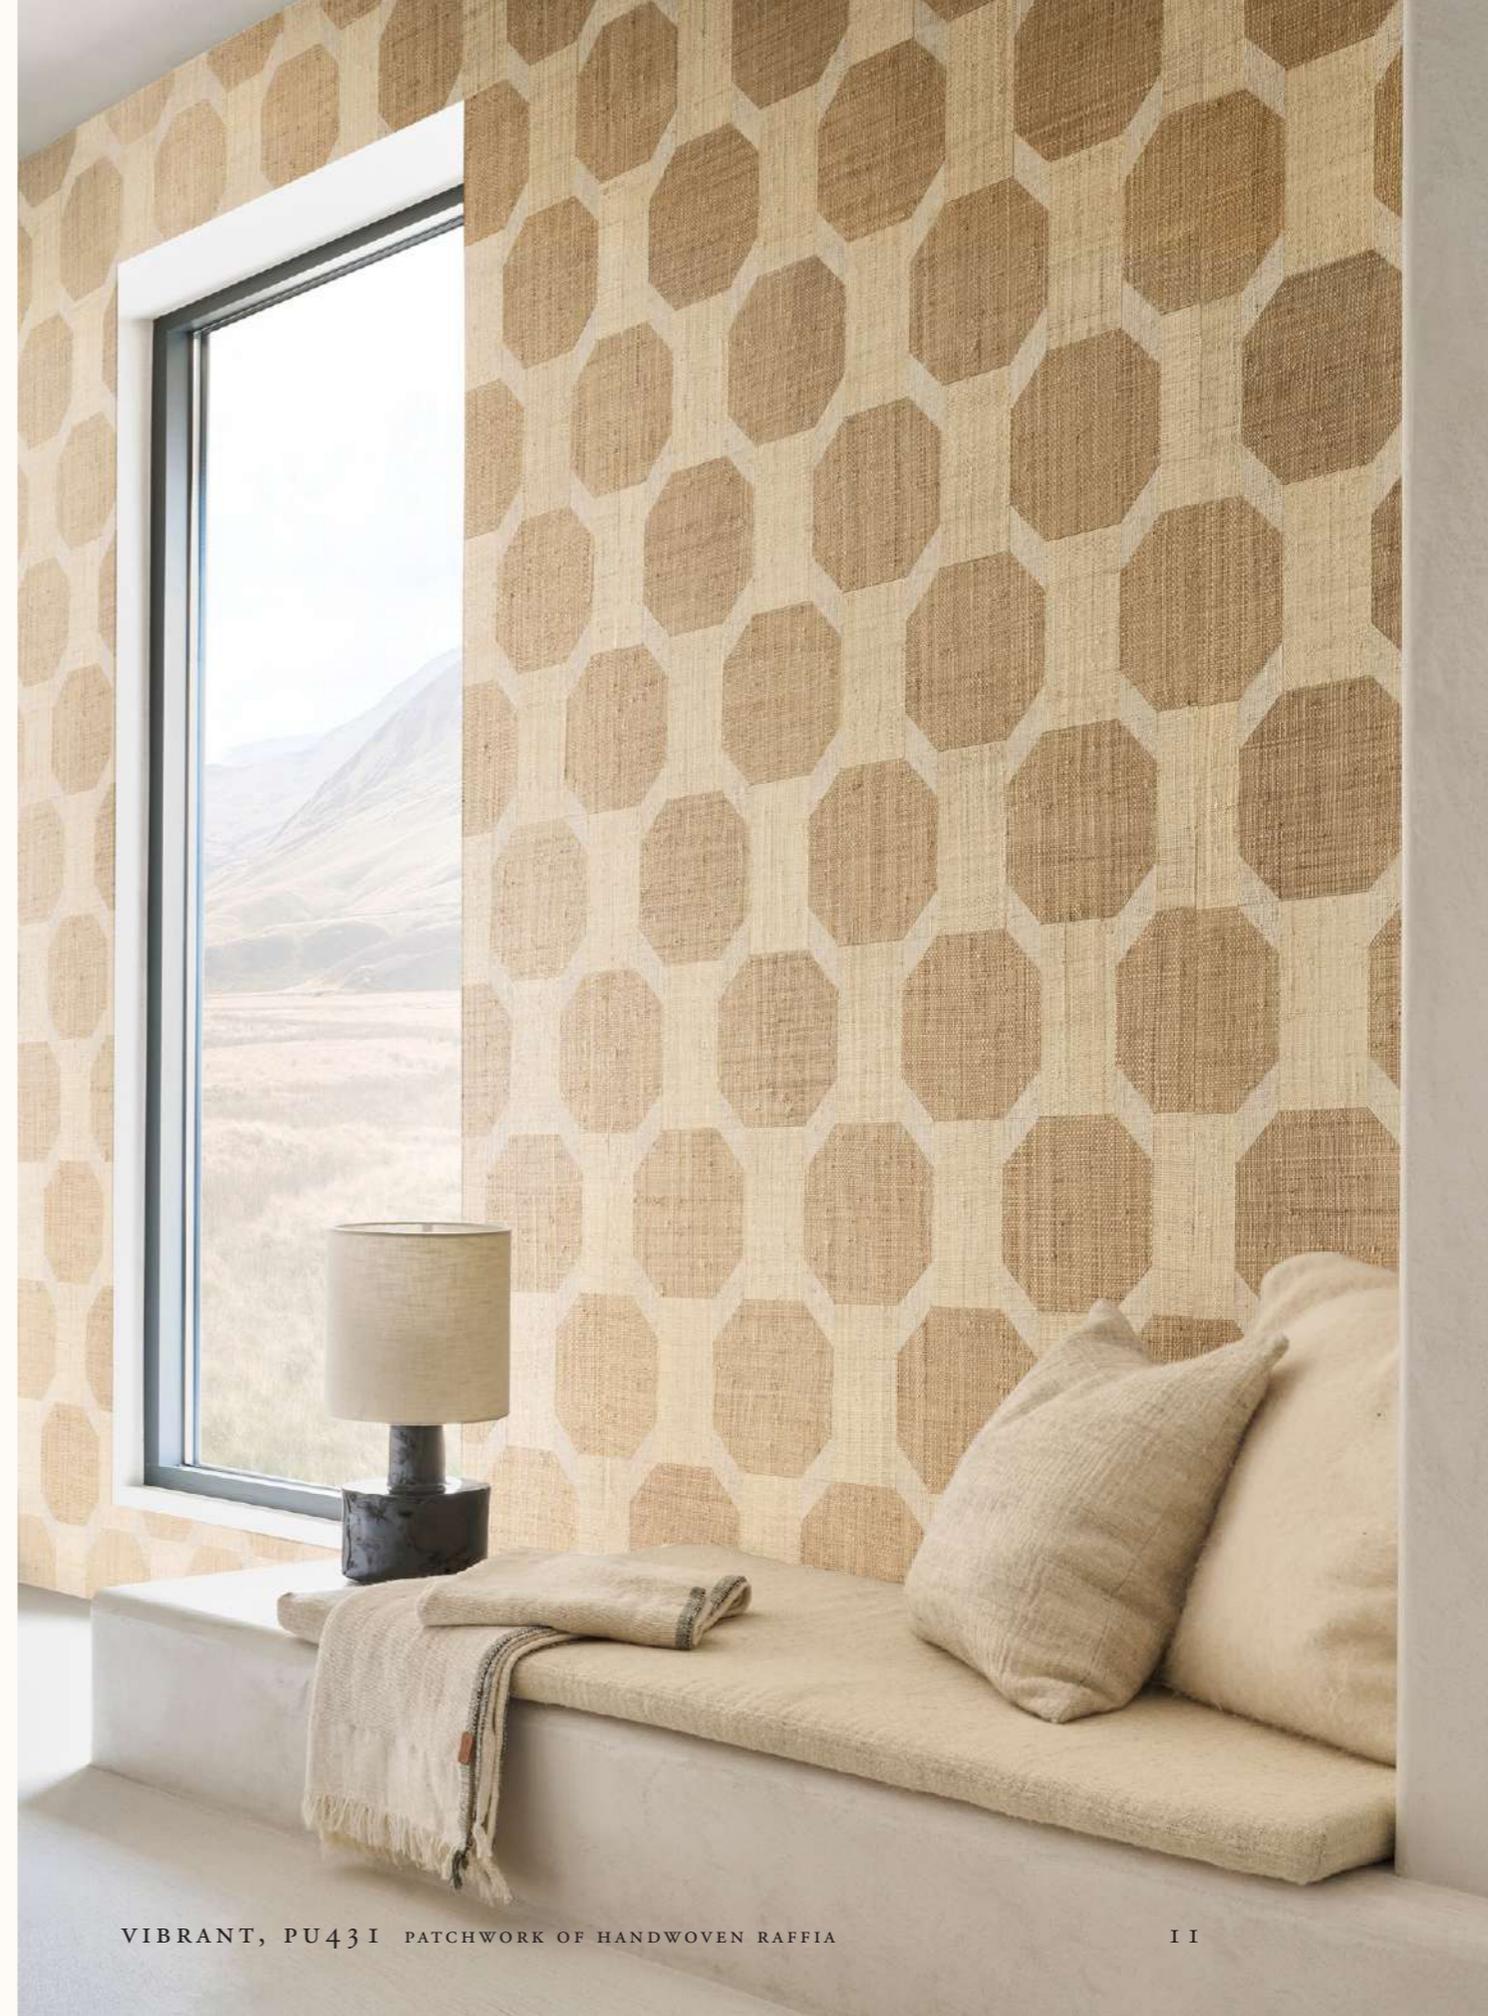

Driven by design, innovation, and craftsmanship, we have a time-honoured affinity for natural products.

We work with highly specialised partners, each using their knowhow in a unique way. These craftsmen use a large variety of ethically sourced raw materials such as wood veneer, mineral stones, natural plant fibres, capiz shells and cork.

Dedicated to the finest artisan traditions, we transform pure materials into exceptional wallcoverings, from natural elements into works of art.

Textiles

A savoir-faire that requires mastery of the entire creative process, from the careful selection of fibres, the spinning and dyeing of yarns to the realisation of the final textile wallcovering, exploring a variety of textures and materials.

Silk, Belgian linen, wool and handspun yarns of Indian cotton are truly being celebrated as noble materials in our refined and lavish collections.

Textile wallcoverings seduce by their sophisticated simplicity and timeless elegance.

TEXTURED WOOL

LOOM STORIES
TEXTILE YARNS

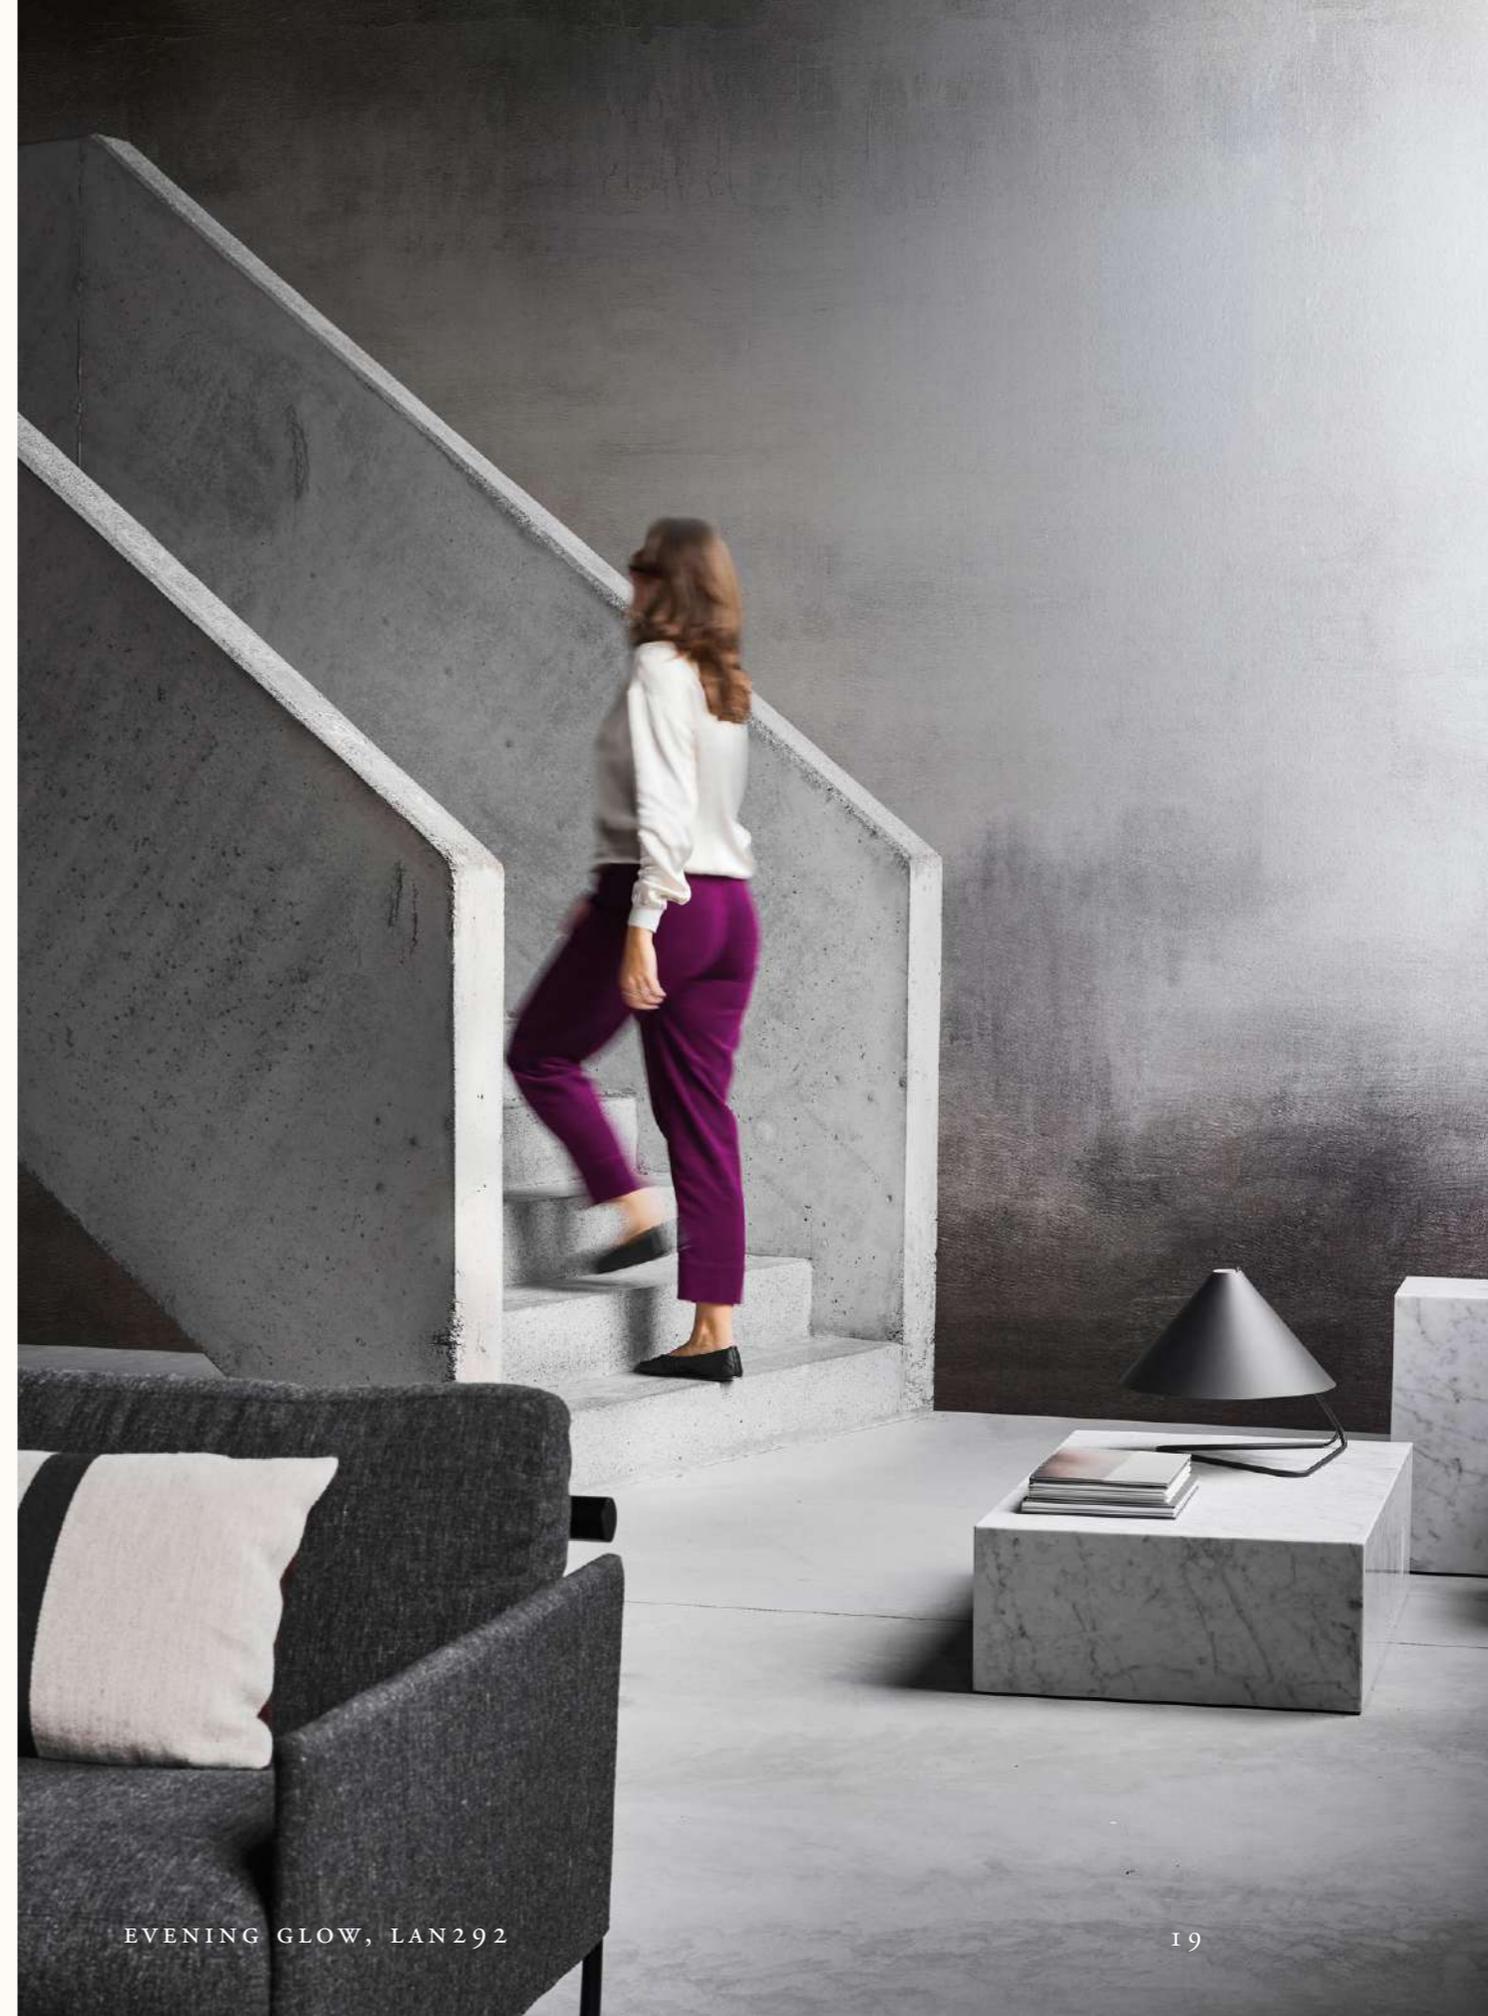

Textured non-woven paper

Our textured non-woven wallcoverings consist of a non-woven backing on which a design is printed: exuberant tropical prints, geometric shapes, hand-painted patterns or printed plains.

All of them are made in-house at our Belgian mill. They are suitable for both residential and contract projects, as they are fire-rated, easy to clean, and marine certified.
